**SUMMONS**

In the Justice Court of Lomita Township, County of Los Angeles, State of California.

L. J. HUNTER, Justice.  
 I. G. Anderson, plaintiff, vs. G. E. Townsend, defendant.

The people of the State of California send greetings to:  
 G. E. Townsend, defendant. You are hereby directed to appear in an action brought against you by the above named plaintiff in the Justice Court of Lomita Township, Los Angeles County, State of California, and to answer before the Justice at his office at Lomita, California in said Township, the complaint filed therein, within five days (Exclusive of the day of service) after the service on you of this Summons, if served within the Township in which this action is brought; or, if served out of said Township, but within said County, within ten days, or within twenty days if served elsewhere. And you are hereby notified that unless you so appear and answer said complaint, as above required, said plaintiff, will cause your default to be entered and take judgment for any money or damages demanded in the complaint, as arising upon contract, or will apply to the Court for relief demanded in the complaint, together with the costs of suit.

Given under my hand this 4th day of January, 1922.

L. J. HUNTER,

Justice of the Peace of Lomita Township, County of Los Angeles, State of California.  
 Pub. Aug. 11-9t.

**Thirty Million a Year In Taxes**

Taxation resulting in higher rents and a general increase in the cost of living, an influx of labor and industrial confusion, are predicted for California if the proposed Water and Power Act is adopted, according to the Workingmen's Civic League which has launched a campaign against the measure.

In an appeal to voters to defeat the Act the league points out these dangers to the laboring class:

"It gives \$500,000,000 of YOUR money to a political board of five members to spend, when, where and how it pleases.

"YOU cannot elect members. YOU have no voice in anything they do with YOUR money. Members are appointed by the Governor, cannot be removed except by a two-thirds vote of the entire legislature, and NO ONE has any control over the board.

"YOU pay \$30,000,000 in interest EACH YEAR. It will be collected in taxes—the Act says so. The landlord adds his share of the tax to YOUR rent, and the merchants to the goods YOU buy.

"This \$500,000,000 will be in bonds exempt from taxation. The wealthy will buy these bonds, because they are not taxable—working people cannot afford them. YOU WILL PAY THE TAX.

"Thousands of working people from all over the country will rush to California expecting jobs if they hear \$500,000,000 is to be spent as proposed under this Act. BUT it will be YEARS before mechanics and other classes of labor are employed. In the meantime the State will be crowded with unemployed, wages will be cut and on account of this competition in labor YOUR job will be insecure.

"It is NOT Public Ownership. You cannot Elect Board members, cannot vote upon how YOUR money will be spent. Cannot say what projects will be undertaken or even question any expenditures. All you do is foot the bills.

"This gigantic bond issue would block public ownership. Taxation would be so heavy bonds could not be voted for the taking over of any utility should the people so desire. And how could we sell bonds for schools, highways and other needed public improvements.

"Be not deceived by the representation that this Act has anything to do with the Boulder Canyon Dam. That is a plan to use the Colorado river for water and power for the benefit of the Great Southwest, including California. It will be constructed and paid for by the United States Government—NOT by California.

"This Act is nothing like the Ontario, Canada, Power Commission Act. There THE PEOPLE have control of the Commission and its expenditures."

gels to try their skill at the Robin Hood Archery Tournament and field meet to be held at the Pickford-Fairbanks Studios, 7100 Santa Monica Boulevard.

At least five hundred boys, and possibly fifteen hundred, will peep into King Richard's Castle and the town of Nottingham, so recently peopled by Little John, Friar Tuck, Will Scarlett, Allan-a-Dale and others of Robin Hood's Merry Band. The archery contest, for which Sid Grauman will give an English Ash bow of the type Robin Hood is said to have used, will be held in the castle banquet hall, where Doug in the role of Robin Hood made records in archery which the Boy Scouts will try to beat.

In addition to the archery tournament, there will be athletic events participated in by the boys who will try to equal marks set by Doug in several events which are distinctly his own.

Following the meet at the Pickford-Fairbanks Studios, the Boy Scouts will proceed to Santa Monica and the Crescent Bay district, where further activities will be participated in.

**Tappan Bakes Perfectly**

You are sure of perfect baking results when you use the Tappan Eclipse. And the secret of its success lies largely in that special cast iron oven bottom.

Once heated, this cast iron bottom requires less gas to keep the oven hot—it distributes all heat uniformly throughout the oven.

**Making 20 Years of Racing Serve Car Owners Today**

IN the early days of automobile contests, Barney Oldfield—out to win every race—studied tires. His consistent success led other drivers to ask for tires constructed to his specifications.

Twenty years of road and track victories—with a steady and increasing demand for tires as he built them—convinced Barney Oldfield that these speed tests pointed the way to a better tire for everyday use.

The enthusiastic reception of Oldfield Cords by the public proved he was right. Scores of the most prominent dealers in the country—and many thousands of car owners, experienced in the use of tires—bear witness by their decided preference that Oldfield is doing a bigger and better job of tire making.

This volume, handled in an effective way in every phase of manufac-

ture and distribution, has resulted in price quotations far below what you'd expect on tires known to be better built and more enduring.

Practically every important race event for three years has been won on Oldfields. The Wichita Test Run in which an entire set of Oldfield Cords covered 34,525 miles on rough roads proves the mettle of the Most Trustworthy Tires Built in everyday driving.

The Master Driver and Tire Builder has given the public a new standard of tire wear and tire cost—a true economy that every car owner should know about.

Your Oldfield dealer has these facts—talk to him.
